EPA Taiwan | METI Japan | SAWS-NRCC | Local CIQ China | ICAMA |
CtGB, the Netherlands

Organizer: REACH24H Consulting Group (a member company of CTI Group) / **Supported by ChemLinked**
Co-organizer: Zhejiang Institute of Standardization (ZIS) Zhejiang WTO/TBT Research & Response Center
Technical support: Chinese Industry Association for Antimicrobial Materials & Products (CIAA)

Finger on the pulse of regulatory affairs in the EU and AP region

With the unprecedented success of last year's CRAC 2013, REACH24H have set the bar even higher for 2014. We are committed to providing an even better platform for exchange and dissemination of the most important cross boarder regulatory and practical compliance information for enterprises operating in China and Europe, the US and the wider Asian Pacific region. This year's CRAC is to be held at [*InterContinental Shanghai Puxi*](#) on *Oct 13-14 (Mon & Tue)2014*.

Since last year's conference the industry and regulatory environment has moved forward, legislations have been amended and new regulations implemented in our collective global efforts to ensure a safer and more efficient management of Chemicals throughout the entire supply chain. What hasn't changed is REACH24H's commitment to host a meaningful event with an industry focus. CRAC is an event where practical issues facing industry are discussed and presented to policymakers, NGO's and leading industrial players alike. CRAC is an event where genuine constructive dialogue converts into take-home information which help attendees come to terms with the most important developments in the Sino-global regulatory environment.

YOUR GATEWAY TO CHINESE AND GLOBAL REGULATORY AFFAIRS

Professional Gathering in China to address concerns raised by regional and international stakeholders in regard to changes in chemical management frameworks and implementation of regulations. Moreover, CRAC 2014 provides extraordinary opportunity for international companies to get overall knowledge of chemical and related products legislative. This year's conference is to help break down market access barriers through dissemination of concise information and user friendly practical compliance strategies. The regulations to be covered at CRAC 2014 for chemical industry will include EU REACH, China REACH and hazardous chemicals registration, Korea REACH, as well as other legislative in the AP region.

In addition to the presentations of regulations in global chemical industry, CRAC 2014 will arrange even broader spectrum. The registered attendees are allowed to choose different seminars on the 2nd day. Delegates of companies specialized in biocides, cosmetics, articles exported to the EU will find the hottest topics and answers to frequently-asked questions.

On the other hand, to meet booming compliance requests of food industry, the organizer has planned a seminar especially for food and food contact material regulations on Oct 13 2014. Officials from competent authorities are going to give speeches on the current status of implementation of specific regulations, requirements and future trends.

CRAC 2014 also provides a unique chance for EHS managers, regulatory affairs and product registrants from various industries to network; helps the audience to create possibilities of establishing continuous communications with authorities and experts.

WHO SHALL ATTEND

- / Expert from Laboratory
- / Scientific Research Institute
- / Decision-maker from multi-national enterprise
- / Procurement manager
- / Responsible person in EHS department
- / Project manager of chemical enterprise
- / Responsible person of Regulatory affairs
- / Product stewardship manager
