

Chemicals Risk Management Solutions and Regulations in Taiwan Region

17. June 2019 (14:00-17:00)

The Shilla Hotel , Seoul, South Korea

REACH24H & Sphera

Free

Every year, REACH24H and its partners organize seminars to address the most relevant and pressing issues faced by the industry. As the safe management of chemicals claims the center stage as a top priority for global compliance solutions, REACH24H and Sphera have joined forces to address this global need through a targeted seminar. Its focus? Sharing globally recognized alternatives and chemical management solutions to ease industry experts' daily work in Product Safety and Regulatory Affairs.

This June 17, REACH24H and Sphera will bring to Seoul, South Korea an exciting day seminar, offering all participants the opportunity to learn about Sphera's "Grand Solution Tour" with world-class technology for Classification & Labeling, SDS Authoring and Chemical Management. In addition, REACH24H will ensure all professionals in the event leave with the latest insights into China and Taiwan Region's regulatory trends. Experts responsible for chemical safety management will get a deep dive into how their work could be better managed by integrating solutions provided by Sphera and discover how East Asian trends are adjusting to pressing global chemical needs.

Speakers

We would like to introduce the speakers of this seminar. As experts, they work daily for our customers as consultants or as trainers

Mr. Aad van Keulen

Senior Regulation Expert Sphera

With 30 years' experience in Chemical Hazard Communication and Chemical Control Regulations, Aad supports companies in identifying and prioritizing their business requirements and mapping them against the various solution sets that Sphera provides in the Product Stewardship space. One of his passions is advocating and assisting companies to transform 'global regulatory compliance' from a constraint for 'go-to-market', into a 'key business driver'. Aad holds a degree in Biology and Toxicology and started his career as an Environmental Management consultant with Royal Haskoning. He has consulted major companies in Oil & Gas, Soap & Detergents, Paint & Coatings, Fragrance & Flavours and downstream users on their Global Product Compliance strategy and designed solutions across diverse operating and IT landscapes.

Ms. Hannah Zhuang

Senior Regulatory Consultant REACH24H Consulting Group

Ms. Hannah Zhuang holds a Master in Communication Studies, having graduated from the University of Leeds. She has been servicing global chemical companies and insuring chemical compliance since 2011. Ms. Zhuang is responsible for key accounts held by customers from Fortune 500 under REACH24H. She has developed a broad expertise in ensuring solutions to chemical registration solutions for the AP region, including China, Taiwan, South Korea, Japan, among others. Ms. Zhuang has been part of many higher band registration projects and has won praise from customers across the industry.
